MASTER OF ACCOUNTANCY

ABOUT THE PROGRAM

The Master's program in Accountancy began in 1996 as a joint collaborative program between UiTM and Curtin University of Technology, Australia. Since 1999, the collaborative program has evolved into UiTM's own Master of Accountancy program. This program aims to educate students to be critical, analytical and ethical at the managerial level and prepares them to take up leadership roles in the fields of accountancy. The program has been designed to provide them with not only advanced knowledge and skills in accounting but also contemporary accounting related issues. Graduates from this program are expected to have broad understanding and knowledge that will help them to be more employable.

ENTRY REQUIREMENT
